Hi Jim,

See below FYI. Here is what I told Gary:

"My understanding has always been that the other \$50m of the settlement was for cleanup in the Kalamazoo River, not cleanup "in general", and was specifically intended to address problems beyond the Allied Site. I think that promoting or even mentioning the use of that funding on the Allied Site requires careful consideration because it is money that would then not be available to prevent PCBs from entering aquatic food webs leading to fishes, a well documented risk to people and wildlife. We will be discussing this more at our next KRWC Board meeting on 8 April. "

I foresee a split in the community on this, and even if we get the KRWC Board on board with my view, we will be vastly outnumbered by citizens and city officials in what I suspect is a largely emotional reaction.

Please keep this email confidential. No need to respond.

Steve

Personal Email / Ex. 6

Greetings;

Here is our press release regarding EPA decision at the Allied site.

I sent out a draft agenda for the community meeting set for tomorrow at 7:00 pm, here at Goodwill. I included Bob as a member of the panel. Will that work, or would someone else from KRWC be available to participate in the discussion?

Thanks,

gw
